

# Kaylee Henry

Atlanta GA · (678)-579-7458 · [kayleehenry162@gmail.com](mailto:kayleehenry162@gmail.com) · [LinkedIn](#) · [Github](#)

Motivated Computer Science student at Georgia Tech with hands-on experience in front-end and back-end development, data management, and Agile project leadership. Skilled in C#, Java, React, JavaScript, Python, HTML, and CSS, with a strong foundation in design principles and user experience. Passionate about building intuitive, visually engaging digital products that combine technical precision with creative problem-solving.

## Education

### Georgia Institute of Technology — B.S. Computer Science

Aug 2024 – (expected) May 2027

**Relevant Coursework:** Data Structures & Algorithms, Objects and Design, Web Development & Design, Visual Design Principles.

GPA 3.95/4.0

### Georgia Connections Academy — High School Diploma

Aug 2021 – May 2024

Graduated with honors one year early | GPA: 4.8/4.0 | Ranked 7/843

## Technical Skills

**Languages & Tools:** C# · .NET · Java · React · C++ · Python · JavaScript · HTML · CSS · Bootstrap · Node.js · Vue.js · TypeScript · Angular.js · Git · SQL · Bash · Django · Google Sheets · Microsoft Office · Figma

**Core Competencies:** Web Design · UI/UX · Data Management · Leadership · Project Management · Agile Methodologies · Scrum · Windows · Linux

## Experience

### Team Lead / ScrumMaster — Knobull

Sep 2025 – PRESENT

Led a 6-person Agile development team as ScrumMaster, overseeing the creation of a real-time chat system connecting students with tutors and a secure online payment processing system.

Designed and implemented back-end APIs with Python and Vue.js and front-end Web UI with React. Integrated with Square for credit card payments.

Coordinated sprint planning, tracked progress, and mentored new developers to improve team collaboration and technical efficiency.

Ensured project milestones were met by streamlining communication and maintaining clear development priorities.

Technologies: Python · React · Vue.js · SQLite · SocketIO · Github · Trello · Payment processing

### Data Management Intern — Work Simplr

Aug 2024 – May 2025

Managed and analyzed datasets using Google Sheets, improving data accuracy and workflow efficiency.

Streamlined reporting processes, increasing team productivity, and decision-making speed.

Implemented quality checks to ensure data integrity across 5+ active projects.

### Program Mate — Florida Sea Base

May 2025 – Aug 2025

Led high-adventure crews on multi-day marine expeditions, ensuring safety and teamwork.

Delivered STEM-based lessons on marine ecology, meteorology, and navigation to over 200 youth

participants.

Collaborated with national and international staff to uphold program standards and logistics.

### **Team Leader — Chick-fil-A**

*Aug 2021 – Dec 2024*

Supervised closing operations and led a team to consistently exceed 95% customer satisfaction ratings. Managed daily transactions using the store's digital payment system, including processing charges, handling refunds, and resolving discrepancies to ensure financial accuracy. Collaborated with corporate systems to troubleshoot point-of-sale (POS) and payment processing issues.

Designed and implemented training programs that reduced new-hire onboarding time by 25%, improving team efficiency and system proficiency across all shift leaders.

## **Projects**

### **GT Job Seekers App** — *Django, React, Google API, HTML, CSS, JS, Python*

Engineered a full-stack job search platform connecting job seekers and recruiters with secure authentication, map integration, and skill-based recommendations.

Integrated resume uploads, application tracking, recruiter dashboards, and search functionality for a complete hiring workflow.

### **MoviesStore** — *Django, React, HTML, CSS, JS, Python*

Developed a web application with user authentication and an interactive movie library, allowing users to browse and review films.

Engineered admin-controlled movie updates, a petition system for user suggestions with voting, and detailed movie pages with reviews and ratings.

### **Habit Tracker App** — *React, Vite, HTML, CSS, JS, Python*

Engineered a full-stack productivity application with a category-based UI to organize goals and tasks. Integrated an achievements system, dynamic progress tracking, and customizable categories for a personalized user experience.

## **Extracurricular**

Boy Scouts of America: Eagle Scout, Assistant Scoutmaster, National Youth Leadership Training, National Leadership Seminar, Order of the Arrow Honor Society, Vice Chief of Inductions, Elangomat Guide.

Hall Council Officer in the Residence Hall Association: Communications Coordinator, Events Coordinator, National Conference.

GaTech Clubs: Vice President of Photography Club, Women at College of Computing, WebDev Club, Association of Environmental Engineers and Scientists, Design Club, GT Creatives.
